

Foreword

The Elite Gender Inversion [EGI] agenda is about our children. They don't want us; we're too far gone. Ultimately, everything, EVERYTHING, boils down to Baphomet worship; the combining of the two sexes into one.

Movies, television, sports, politics Et al., were all created to bring us to this very moment in time. The hidden-transgenders in our popular culture are satanic, and our children worship them. The result of this celebrity worship: Our children are literally begging to have their bodies mutilated.

This post is graphic, because I want to show you the dark side of the trans-agenda. The famous and the victims of the famous.

The quotes on each panel are from actual "Gender Confirmation Centers", and these centers are CLEARLY pandering to children. Pandering to children to mutilate their bodies.

Okay, you've been duly warned ...

Elective Bilateral Mastectomy **AKA** **Top Surgery**

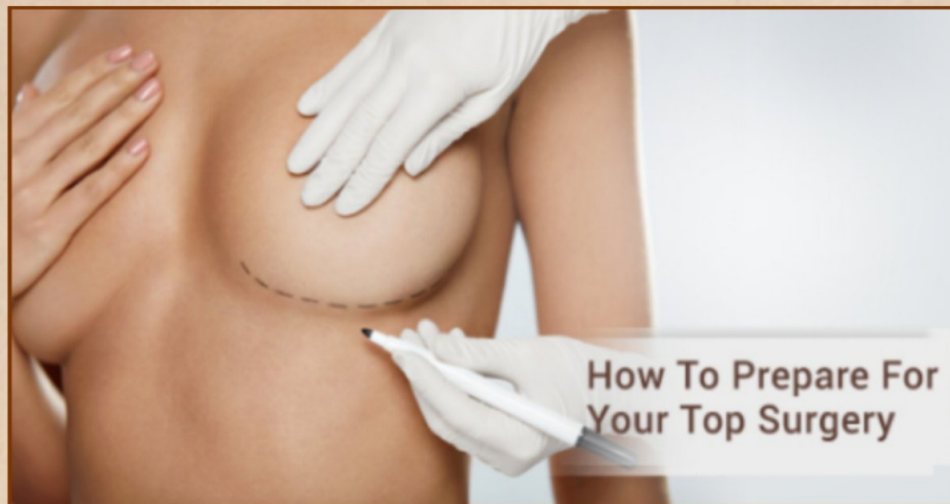

This destructive surgery is the beginning, not the end, of the FTMs medical journey as a subject of the disturbing EGI Agenda.

An FTM EGI's nipples are often desecrated or completely missing as a result of this barbaric ritual:

"Never be ashamed of the scars that life has left you with. A scar means the hurt is over, the wound has closed, you endured the pain and you are healed."

Post-op photos. Look at the bodies; these are children.

"Focus on giving your body the nutrients it needs to heal and form healthy scars."

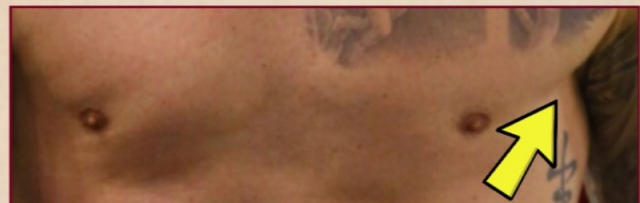

"Parents usually are a little slow about these things. I bet you're tired of hearing all of this and just want to move on!"

Orlando Bloom

If you visually compare Orlando's left and right breasts, the asymmetry common to victims of elective bilateral mastectomy is evident. (Yellow arrows)

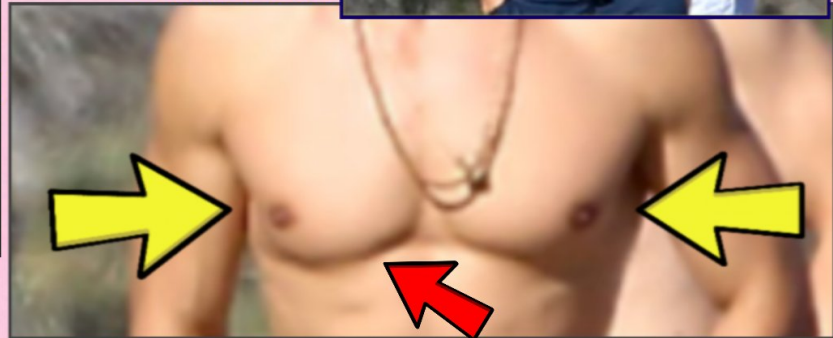

Also evident: photo-editing used to conceal scarring. (Red arrows)

Orlando Bloom's asymmetric breast tissue regrowth:

For a starring movie role, Orlando had a strategically placed, temporary, tree tattoo added to his trunk.

Because the nipple will generally need to be relocated using a tissue excision, nipple mutilation is common.
